

GPD60-1212V60Ah GP Battery: Your Ultimate Industrial Power Solution

GPD60-1212V60Ah GP Battery: Your Ultimate Industrial Power Solution

What Makes the GPD60-1212V60Ah Stand Out?

When you're dealing with mission-critical power systems, the GPD60-1212V60Ah GP battery isn't just another lead-acid option - it's the Swiss Army knife of industrial energy storage. Unlike standard car batteries that konk out after a few deep cycles, this workhorse delivers 500+ full discharge cycles while maintaining 80% capacity. Imagine a marathon runner who also does weightlifting - that's essentially what you're getting here.

Key Technical Specifications

Rated capacity: 60Ah @ 20-hour discharge rate

Float voltage: 13.5V-13.8V (25°C)

Terminal type: F16 fast-on connectors

Self-discharge rate:
