

LFP12-100BT 12.8V 100Ah Landport: The Workhorse Battery You've Been Overlooking

LFP12-100BT 12.8V 100Ah Landport: The Workhorse Battery You've Been Overlooking

When Deep Cycles Meet Industrial Durability

a battery that laughs in the face of -20°C winters and 50°C desert heat. The LFP12-100BT Landport isn't your average power source - it's the Swiss Army knife of deep cycle batteries, combining LiFePO₄'s legendary stability with industrial-grade construction. Unlike traditional AGM batteries that tap out after 500 cycles, this unit delivers 3,000+ cycles at 80% depth of discharge. That's like powering your off-grid cabin every single night for over 8 years.

Technical Muscle Beneath the Hood

Smart BMS with real-time load monitoring (no more guessing games)

Military-grade vibration resistance (we're talking bulldozer-level ruggedness)

Self-discharge rate
