Understanding the FG-2V800AH FGET Battery: Technical Insights and Applications

What Makes the FG-2V800AH FGET Unique?

Let's cut through the jargon: The FG-2V800AH FGET isn't your average power source. Imagine a marathon runner who can sprint when needed - that's essentially what this valve-regulated lead-acid (VRLA) battery offers. With its 2V nominal voltage and whopping 800Ah capacity, it's built for heavy-duty applications where reliability isn't just nice-to-have, it's mission-critical.

Key Specifications at a Glance

Energy Storage: 1.6kWh (2V x 800Ah)

Cycle Life: 1,500+ deep discharge cycles at 80% depth

Self-Discharge Rate:
